

July 22, 2017

To the Owner/Manager of Star Gas Products, Inc.;

I am writing to commend you on the outstanding service provided by your Company employees this past week. We now have two new looking propane tanks and a twelve-year-old pool heater that is running "as good as new" because of the outstanding work of your technicians. They went above and beyond, even on a hot & humid summer day, to make sure we were happy with the result of their timely visit.

I am so very glad we made the call to Star Gas Products. On the phone, we were treated with professionalism and patience. The myriad of questions we had were answered promptly. The price quotes and times to expect service and delivery were spot-on!

I would highly recommend your company to anyone who uses propane and I look forward to being a loyal customer of yours for many years to come!

Sincerely,
Elizabeth Kelly
