

Service Technician (FT)

DESCRIPTION

Self-motivated, safety-conscious, and dedicated to customer service? Ready to join and support an outstanding local team of professionals? Realize your potential at our positive, supportive workplace. Already have skills? Advance faster. Jumpstart into a rewarding propane career at Star Gas Products, Inc.

We are currently in search of a propane service technician to join our work family.

PRIMARY RESPONSIBILITIES

Service Technicians are paired with service apprentices on a maintenance team to:

- Provide excellent customer service
- Install, maintain, troubleshoot, removal, and repair of propane systems and appliances
- Performing seasonal services like cleaning and maintenance, filter replacements
- On-call duty rotation is required to include weekends and evenings
- Perform duties in a safe and efficient manner conforming to federal, state, and local guidelines and codes.
- Manage service vehicle maintenance: to be clean, free of debris, update maintenance records, perform pre and post-trip inspections, report vehicle conditions to keep vehicles running safely
- Load and unload company vehicles
- Operate a crane/dolly to move propane tanks, work trenching equipment to run in-ground gas service lines, restore propane tanks by sanding and painting
- Participate in in-person and online educational training
- Other responsibilities may include propane delivery, shop and plant maintenance as needed.

REQUIREMENTS

- Age: 21 and above with a neat, clean appearance
- Proficient verbal and written communication skills to complete paperwork
- Team player who displays a professional attitude to all customers, contractors, and teammates.
- Prompt, safety-conscious, enthusiastic, committed, proactive, resourceful
- Clean, safe driving record with a valid CDL driver's license class C, B, or A with Hazmat, tanker, and air brake endorsements with valid medical card/certificate
- Mechanically-inclined skills are helpful: experience with hand tools, power tools, and test equipment
- Basic troubleshooting, problem-solving and diagnostic skills
- Experience with appliance installation and repair, natural gas or LP gas piping is helpful. HVAC experience is a plus.
- Ability to lift and pull equipment that weighs 50 to 75 lbs. as well as bend, climb, reach, stoop, and twist
- Willingness to work outdoors in all weather and driving conditions
- High School Diploma or GED helpful

Please note that background checks and drug screens are performed as part of our pre-employment hiring process.

POSITION

- Union, full-time: 40 hours, Monday—Friday, some overtime may be required

LOCATION

The job will originate out of our Poughkeepsie or Kingston, NY office.
